

Dear Parent or Guardian of _____

This letter is to inform your son/daughter could benefit from summer school. Having your child participate in summer school may help build skills to grade-level-appropriate in addition to graduating on time. Summer school is a way to make up credit and avoid an additional year of schooling.

Benzie Central summer school classes utilized an online platform, Edgenuity as well as teacher lead direct instruction. Interested students must complete an Online Permission form submitted to the High School office. If an Online Permission form is not turned in, the student will not be allowed to take part in summer school. Summer school begins on June 13th, 2022. Orientation for summer school is on the afternoon of June 10th, at Benzie Academy.

The cost for summer school is \$100 and program space is limited. If the student successfully finishes a class with a C or better, by the last day of summer school, they will be issued a refund of \$50.00. Sign up and payment for summer school will begin June 1st in the high school office (checks payable to **Benzie Central High School**). Payment is due on, or before the June 13th start date. Students are **required to have Mandatory in-person contact** with the Summer School staff (can be through Google Meets).

Classes include reading/study assignments, quizzes, and tests, as well as a final exam. If scheduled for an online class, all assignments and quizzes are done online and can be done anywhere, any time, any place. Unit tests and the final exam must be supervised by summer school teaching staff and either be taken at Benzie Academy or via Google Meet. A calendar of open lab times is on the back of this letter.

If you have additional questions regarding Benzie Central summer school please contact our counseling department or Mrs. Taghon at Benzie Academy.

Sincerely,

David Clasen, Principal

- To earn credit, all courses must be entirely completed including the final exam by the last lab day. No exceptions!
- Course work (besides tests & the final exam) may be worked on from any computer, anywhere, any time. Students need not be present in the lab for lessons and quizzes!!!
- Tests and Exams have to be taken on-site.
